--> Comment Text :
The state of Nevada and many of the citizens who oppose Yucca Mountain have been very pushy in stating their opinions and have made it very difficult for citizens to express support for Yucca Mountain. During this hearing, the foes of Yucca Mountain have been very rude and unfair. My daughter attends Centennial High School (in northwest Las Vegas) and has told me that most of her classmates support Yucca Mountain.

I grew up in the state of Illinois. In the small farm town, where my family still lives, there is a war plant, closed down Bordens chemical plant, and closed down Dekalb fertilizer plant. I am much more fearful of the chemicals from that sources--my

grandfather had emphysema from farming with fertilizer (he was not a cigarette smoker).

I have lived in Lakewood, Colorado and had many more fears about chemical wastes in that area. I lived in Albuquerque for 10 years and supported WIPP. I have a husband and daughter and feel much more comfortable living close to Yucca Mountain or WIPP or Rocky Flats than I felt living in rural Illinois. Plus, I have been able to find employment in the Southwest/West, while jobs are disappearing in my home state.

Thank you.
